

**STATEMENT OF WORK
FOR
CONSTRUCTION**

Requisition #353905:

Title: Lubricants, Oils and Coolants for ERDF TMF

Revision Number: 0

Date: July 26, 2021

PART 1 – GENERAL

1.1 INTRODUCTION / BACKGROUND

This contract is issued for the performance of delivering lubrication, oil and coolant products to the Environmental Restoration Disposal Facility (ERDF) - Truck Maintenance Facility (TMF) in support of Central Plateau Cleanup Company (CPCCo) work scope for the period October 1, 2021 through September 30, 2022 with an option to continue from October 1, 2022 through September 30, 2024. CPCCo is a prime contractor to the U.S. Department of Energy (DOE) and all work on this Statement of Work will be performed in support of the CPCCo contract with DOE.

1.2 DESCRIPTION OF WORK - GENERAL

Contractor employee(s) shall be responsible for independently planning, organizing and performing the delivery of products in an acceptable manner and in accordance with all provisions of the contract. CPCCo's actual needs will fluctuate over time.

1.2.1 Work is in the 600 Area of the Hanford Site and is located approximately 20 road miles *northwest* of Richland, Washington.

1.3 DESCRIPTION OF WORK - SPECIFIC

1.3.1.1 Provide and manage labor, equipment, material, and services required to complete work. Labor includes participation of Contractor's employees in training and medical examinations required by Contract for the following:

- Delivery to TMF of requested oil, lubricant and coolant products
- Deliver all listed items within one business day
- Provide updated Safety Data Sheets as soon as possible for all items
- Pick up empty drums/containers as needed/directed
- Provide two - 250 gallon bulk tanks with pumping set-ups for bulk oil and bulk hydraulic fluid

Note – no product substitution is allowed without prior approval by CPCCo.

1.3.1.2 The work products and services to be provided, including any specific CPCCo standards and requirements, required for the successful completion of this activity includes delivery of the following items:

SECTION 01040 COORDINATION

PART 1 – GENERAL

1.1 COMMUNICATIONS

1.1.1 Written communications between Buyer and Contractor shall be sent to the Buyer representative identified under “Administration Contract Correspondence” in the Contract document Part IV – Special Terms section of the Contract Document. The Contractor may interface with various Buyer (and other) organizations through the Buyer Contract Specialist (or designee), as required.

1.1.2 Applicable interfaces, including existing facilities, systems, features, and environmental conditions that the Contractor may interact with, include the following:

- *CPCCo Contract Specialist*
- *BTR*
- *ERDF TMF Lead Mechanic*

1.3 SECURITY, BADGES, AND DOSIMETERS

1.3.1 Buyer will arrange for issuance of security badges and dosimeters required for delivery of oils, lubricants and coolants subject to the requirements identified in the Contract document under Part IV, Special Provisions – On-Site Services SP-5.

1.4 WORK HOURS

1.4.1 Work will be done on a 4-10’s schedule Monday through Thursday. The standard workday shall consist of 10 hours of work between the core hours of 6:00 AM to 4:30 PM. No work occurs on Facility Closure Days. If schedule alternative is required, BTR will communicate to Contractor contact.

1.4.2 The Contractor will have access to the job site based on the terms of the Contract.

1.5 WORK MANAGEMENT REQUIREMENTS

1.5.1 Contractor will perform in accordance with the terms and conditions of this contract, CPCCo internal policies and procedures, and quality assurance provisions, including safety programs, laws, orders, permits, rules, confidentiality of information and intellectual property safeguards.

1.2 CONDITIONS

1.2.1 Product substitutions are not allowed without prior approval by CPCCo

1.2.2 Should any of the products listed in Sec. 01010 become unavailable the contractor shall notify CPCCo as soon as possible

1.2.3 Should a product from Sec. 01010 have a name change, a change to the product code, or a change in package size the contractor shall notify CPCCo as soon as possible

1.2.3.1 Substitution requires approval of a Change Form (A-6004-820)

1.3 CHANGE FORM PREPARATION

1.3.1 Using the Buyer Change Form, identify addressed product by the Statement of Work or Specification section and article or paragraph numbers or by the Drawing number. Provide manufacturer's name and address, trade name, and model or catalog number. List fabricators as appropriate.

1.3.2 Attach descriptive information to define the operational and physical characteristics of the specified substitute product and to provide a basis for comparison. Include drawings, calculations, and data as appropriate.

1.3.3 Provide an itemized comparison between the proposed substitute and the original specified product. Include the following information:

1.3.3.1 Applicable Statement of Work or Specification section and article or paragraph numbers or applicable Drawing number.

1.3.3.2 Quality and performance comparison. List variations.

1.3.3.3 Cost data. Show the net Contract price change.

1.3.4 List the availability of maintenance service and replacement materials.

1.3.5 State the effect of the substitution on the schedule and identify the changes required in other work or products. Submit drawings, calculations, and vendor data to show the revisions necessary to accommodate the substitution.
