Change Summary

Description of Change

The Cardiac Science Powerheart G3 model has been discontinued, and new batteries and pads will not be able to be purchased in the future. CPCCo has determined that the new model of AEDs that should be purchased to replace the G3s is the Zoll AED 3. This minor revision clarifies all future AEDs purchased shall be the Zoll AED 3.

Automated External Defibrillators**Published Date: 06/23/2025****PRC-PRO-SH-10648****Effective Date: 06/23/2025****1.0 INTRODUCTION****1.1 Purpose**

This procedure provides information for use of Automated External Defibrillator (AED) program management, selection, training, inspection, and reporting of related events.

1.2 Scope

This document is applicable to Central Plateau Cleanup Company (CPCCo) team employees performing CPCCo scope of work where the decision has been made to use AEDs.

1.3 Applicability

This procedure is applicable to the CPCCo Environmental Safety, Health, and Quality (ESH&Q) Program and all facilities equipped with an AED.

1.4 Implementation

This document is effective upon publication.

2.0 RESPONSIBILITIES

All responsibilities associated with this procedure are identified in the process steps.

Buildings/vehicles/trailers associated with a facility operation are managed through the Operations Manager or AED Coordinator Buildings/trailers without ties to an Operations group are managed through the Building Wardens.

3.0 PROCESS

The CPCCo Manager of Occupational Safety and Industrial Hygiene is the CPCCo AED Program Manager. The CPCCo AED Program Coordinator is the Interpretive Authority, and primary liaison with the CPCCo AED program participants. The Project AED Administrator is the person responsible for program implementation and oversight at the project level and is assigned by the Project Safety Manager. Operations/Facilities Management are the groups within the projects that are responsible for completing inspections and updates and reporting information to the Project AED Administrator.

All future AED purchases for CPCCo shall only be the Zoll AED 3 model. Replacement electrode pads and batteries for other existing AEDs within CPCCo's inventory such as the Cardiac Science Powerheart G3 models are still allowed to be purchased.

3.1 AED Program Responsibilities

Actionee	Step	Action
CPCCo AED Program Manager	1.	ENSURE uniform requirements for an AED program are established.
	2.	INTERFACE between the Medical Director or his/her representative from the OMSP on inquiries relating to the medical use of an AED.
	3.	DESIGNATE a CPCCo AED Program Coordinator.
	4.	MAINTAIN direct authority over the CPCCo AED Program and its project site participants.
	5.	ASSIST projects with implementation of the AED program upon request.
	6.	ACT as the AED Program Technical Authority.
	7.	PROVIDE technical assistance as requested.
	8.	MAINTAIN a list of approved AEDs for purchase.
	9.	MAINTAIN a list of CPCCo AEDs with make, model, serial number, location, assigned Project AED Administrators, and Operations/ Building Administrators.
	10.	UPDATE the procedure as needed.
	11.	Periodically PERFORM field assessments to ensure the program is adequately implemented.
Project Safety Manager	12.	ASSIGN the Project AED Administrator to oversee the implementation of the AED program at the project level.
	13.	APPROVE all proposals to install AEDs.

<i>Actionee</i>	<i>Step</i>	<i>Action</i>
Operations/ Facility Management	14.	SELECT AED station locations.
	15.	PURCHASE only approved AEDs listed in Section 3.0 in accordance with CPCCo purchasing procedures. <ul style="list-style-type: none"> a. COMMUNICATE with Project AED Administrator when replacing or adding AEDs within the facility.
	<div style="border: 1px solid black; padding: 5px;"> <p>NOTE: <i>When Projects and Facilities stage AEDs in motor vehicles or outside storage cabinets without environmental controls, personnel shall be assigned to ensure AEDs are moved to a safe location when environmental conditions within the vehicle or storage location will exceed the environmental conditions recommended by the manufacturer (e.g., temperatures less than 32 degrees F or greater than 122 degrees F, humidity greater than 94% non-condensing). In all cases, the manufacturer’s recommendation must be closely followed.</i></p> </div>	
Project AED Administrator	16.	MAINTAIN <u>AND</u> INSPECT AEDs per CPCC-PRO-MN-40470, <i>Automated External Defibrillator (AED) Maintenance Procedure</i> , or equivalent.
	17.	NOTIFY Project AED Administrator of new AED installations.
	18.	Annually ASSESS facility/department working level procedures to ensure AED requirements are properly incorporated.
	19.	MAINTAIN a list of all AEDs with make, model, serial number, location, and Operation/Building Warden within their specific project/department.
	20.	NOTIFY CPCCo AED Program Coordinator of new AED installations.
	21.	ENSURE an adequate number of AED volunteers are trained to provide AED response.
	22.	COORDINATE annual reporting in accordance with Section 3.5.

3.2 AED Users Requirements

<i>Actionee</i>	<i>Step</i>	<i>Action</i>
<div style="border: 1px solid black; padding: 5px;"> <p>NOTE: <i>AEDs are designed and may be used by untrained personnel in the event of an emergency.</i></p> </div>		
Project AED Administrator	1.	ENSURE that AED program volunteers are trained to initiate cardio-pulmonary resuscitation (CPR) and use of AED.

Effective Date: 06/23/2025

Actionee	Step	Action
Operations/ Facility Management	2.	Following emergency use of an AED, NOTIFY the Project AED Administrator.

3.3 AED Training

Actionee	Step	Action
Project AED Administrator	1.	ENSURE AED program volunteers are trained to initiate CPR and use of AED. HAMMER provides Basic Medical First Aid and AED Training Course #170500 and Refresher Training Course #170501. Other offsite courses may be considered equivalent if approved by HAMMER.

3.4 AED Reporting

Actionee	Step	Action
Project AED Administrator	1.	COMPLETE annual report using <i>Annual Facility AED Report</i> (Site Form A-6006-527), or equivalent, providing make, model, location, and serial number of all project AEDs.
	2.	PROVIDE annual report to CPCCo AED Program Coordinator by the third Friday in October.
	3.	NOTIFY CPCCo AED Program Coordinator any time an AED is used in an event.
CPCCo AED Program Coordinator	4.	PROVIDE annual report of the CPCCo AEDs to the Hanford Fire Department (HFD).
	5.	ENSURE information is disseminated to CPCCo projects with AED programs in the event of Lessons Learned, equipment recalls/ updates, or AED program requirement changes.

3.5 Updating AEDs to Comply with American Heart Association (AHA) Guidelines

AEDs are programmed to meet the most current guidelines adopted by the American Heart Association (AHA) when they are manufactured. Periodically the AHA reviews these guidelines and incorporates updated information, based on research that will provide the most beneficial outcome. For example, these guideline changes might include changes in the way CPR is performed (including the shock) or a CPR sequence is programmed into the AED.

This section is completed when guidelines change requiring AEDs to be re-programmed.

Actionee	Step	Action
CPCCo AED Program Coordinator	1.	<u>WHEN</u> updates are made available by the AED manufacturer, <u>THEN</u> OBTAIN the update software <u>AND</u> ENSURE new software is installed in accordance with the manufacturer recommendations (including verification of unit functionality following updating). Work with the projects to minimize software update purchases.
	2.	COORDINATE with the Project AED Administrators to ensure AEDs are reprogrammed in accordance with the guideline changes or as soon as possible after the AED manufacturer releases the update program.
Project AED Administrator	3.	<u>WHEN</u> notified by the CPCCo AED Program Coordinator that updates are required, <u>THEN</u> OBTAIN the updated software <u>AND</u> INSTALL in accordance with the CPCCo AED Program Coordinator recommendations (including verification of unit functionality following updating).
	4.	WORK with Operations/Facilities management and their maintenance organizations to ensure updates are installed and tested.
Operations/Facilities Management	5.	<u>IF</u> AED(s) cannot be re-programmed, <u>THEN</u> REMOVE from service <u>AND</u> CONTACT Project AED Administrator for recommended action and proper disposal.
	6.	Following the update of project AED(s), NOTIFY the Project AED Administrator.
